"Never the End."

A universe of secrets is about to come to light.

Batman protects Gotham City from evil. Batman Inc. protects the rest of the known world. But what of the unknown world? What of the ancient evils in hidden tombs and forgotten tragedies from a magic-and-mad-science-fueled super-heroic century? Using his fortune, Luke Fox launches a new organization dedicated to shining light into the world's darkest corners. His first recruit: Kate Kane, the Batwoman—who will re-embrace her military background to protect Luke's dream and encounter every bit of strangeness the DCU has to offer. And just wait until you meet the Third Man...or learn what universe-shattering secret they've discovered buried under Antarctica. *Outsiders* is the return of comic book archaeology, digging into all the forgotten corners of DC's history to preserve, record, and better understand the true nature of the DC Multiverse...and the forgotten stories that make up its fabric.

And the closer Batman gets to the truth, the clearer it becomes that his real enemy's power runs much deeper than just puppeteering a few costumed criminals...to the very heart of Gotham City itself!

Because when the super-villains of Gotham get thrown into Arkham, their henchpets go to the maximum-security pound known as Barkham Asylum.

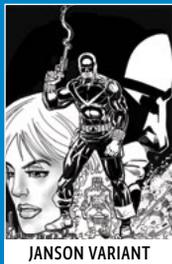

Being the Clown Prince of Crime's dog doesn't win Jester any friends behind bars, especially after he gets a tough-talking stray cat named Penny tossed into lockup with him. But they'll have to work together to figure out what the evil Warden Shar Pei's helper, Dr. Hugo Mange, is up to. And the only way to stop this terrifying team-up is to win the talent show and get visitation with their masters at Arkham on the hill. Because The Joker is sure to help!

What could go wrong with that plan? And where does Gotham's premier playboy Bruce Wayne's butler Alfred fit in?
