THE DAWN OF DC IS HERE!

DC is embarking on a yearlong storytelling event, **Dawn of DC**. Following the events of *Dark Crisis on Infinite Earths* and *DC Universe: Lazarus Planet*, the world's superheroes have emerged from the biggest, most devastating battles of their lives and are reinvigorated in their fights against evil. With bold new directions for DC's biggest characters, Dawn of DC is an easy entry point for both lifelong readers and those picking up a comic for the first time to dive into the new stories.

"After the near-Multiverse-ending events in *Dark Crisis on Infinite Earths* and *DC Universe: Lazarus Planet*, the DC Universe will be heading toward the light," said DC publisher and chief creative officer Jim Lee. "With brand-new series and story arcs from some of the top creative members in comics, Dawn of DC is one of our most ambitious initiatives ever and is a chance for us to tell bigger and bolder stories across our line."

Over 20 new comics series will launch throughout 2023, featuring Hal Jordan, John Stewart, Shazam, the Doom Patrol, Green Arrow, Cyborg, the Penguin, and more.

Ra's will remove Batman from the equation and save the world, re-creating it in his image and bringing the peace and prosperity all the good-hearted souls of this Earth deserve. Don't miss this epic tragedy from the all-star creative team of Tom Taylor (*Nightwing*, *Superman: Son of Kal-El*, *DCEased*) and Ivan Reis (*Detective Comics*, *Blackest Night*): the last of the One Bad Day specials, and one of the most epic to date.

In the early 1980s, as the Cold War stubbornly refuses to thaw, a new battle heats up...for the soul of the intelligence agency Checkmate. As the agency's super-heroic public face, Jackson King—a.k.a. the armored Battalion, former leader of Stormwatch and the symbol of American might—has long suspected that Adeline Kane is up to dirty tricks overseas, engineering horrors that betray everything he believes about service to one's country. But King doesn't know that Kane has a clever new ally—an ambitious young woman named Amanda Waller. She has her own ideas about how metahumans can serve their country. And honor, dignity, and long lives don't factor into them... National security reporter Spencer Ackerman (the Daily Beast, *Reign of Terror*), comics and video game writer Evan Narcisse (*Spider-Man: Miles Morales*, *Gotham Knights*), and veteran artist Jesús Merino (*Wonder Woman*, *The Joker Presents: A Puzzlebox*) celebrate WildStorm's legacy of espionage-flavored superhero morality plays, pitting Stormwatch against the deadliest people in the DCU—including Deathstroke himself!
